

WackyAcme Corporation: Employee Handbook and Universal Survival Guide

1.0 Welcome to WackyAcme

Welcome to WackyAcme Corporation! Our mission is simple: "To manufacture the absurd, standardize the impossible, and ensure that every anvil we drop lands exactly where it shouldn't." As a new employee (or "WackyWorker"), you are now part of a legacy that spans three dimensions, two timelines, and a legally disputed parallel universe.

This handbook is designed to guide you through our standard operating procedures, safety protocols, and the occasional temporal anomaly. Please read this document carefully. Ignorance of the policy is not an acceptable excuse, especially in the event of accidental transfiguration.

1.1 The WackyAcme Core Values

- **Innovation through Detonation:** If it doesn't explode, we haven't pushed the boundaries hard enough.
- **Synergistic Nonsense:** We believe in cross-departmental collaboration, even if the Accounting department is currently invisible.
- **Customer Confusion:** A confused customer is a curious customer.
- **Safety Third:** Productivity and profitability come first and second. Safety is a solid third, right above "Free Bagel Fridays."

2.0 Workplace Attire and Anti-Gravity Gear

WackyAcme embraces a "Business Absurd" dress code. Employees are expected to present themselves in a manner that is professional yet prepared for sudden shifts in the laws of physics.

2.1 Standard Attire

- Employees must wear at least three distinct bright colors at all times to ensure high visibility in the event of a localized smoke cloud.
- Ties, scarves, and other loose accessories must be breakaway to prevent entanglement in the oversized gears located in the hallway.
- Closed-toe footwear is mandatory. Steel-toed boots are highly recommended for those working on the Ground Floor, due to the high frequency of falling grand pianos.

2.2 Specialized Equipment

- **Anti-Gravity Boots:** Required for all staff operating in Sector 4G. Boots must be fully charged before entering the sector. WackyAcme is not responsible for employees who float into the ventilation shafts.

- **Lead-Lined Hats:** Mandatory for all meetings with the Executive Board to prevent unauthorized telepathic brainstorming.
- **Casual Time-Travel Fridays:** On Fridays, employees are permitted to wear clothing from any century they choose, provided it does not cause a grandfather paradox.

3.0 Office Hours and Time Management

Standard operating hours are Monday through Friday, 9:00 AM to 5:00 PM (Standard Earth Time). However, due to the experimental nature of our Chrono-Shift Engine in the basement, "time" can occasionally become subjective.

3.1 Tardiness and Temporal Rifts

Employees are expected to arrive on time. If you are going to be late due to traffic, illness, or getting caught in a repeating time loop, you must notify your manager via the HR portal.

- **Time Loop Protocol:** If you find yourself experiencing the same Monday morning repeatedly, you are only required to log the first eight hours as billable work. The subsequent loops are considered unpaid personal development time.
- **Wormhole Commuting:** Employees utilizing the company-sponsored wormholes for commuting must ensure their exit coordinates are calibrated to the lobby. Materializing inside the breakroom vending machine will result in a verbal warning and a deduction for damaged snacks.

4.0 Communication and Telepathy Guidelines

Clear communication is the bedrock of WackyAcme. We utilize email, Slack, carrier pigeons, and pneumatic tubes to transmit information.

4.1 Digital Communication

- **Email Etiquette:** All company emails must end with a mandatory company-approved sign-off, such as "May your anvils strike true" or "Beware the coyote."
- **Slack Channels:** The `#general` channel is for corporate announcements. The `#containment-breach` channel is for emergencies only and should not be used to post memes, unless the meme contains critical survival instructions.

4.2 Telepathic Communications

Telepathy is strictly restricted to middle management and above.

- Unauthorized broadcasting of your thoughts to the entire floor is a violation of the WackyAcme Privacy Act.
- If you begin picking up strange, alien frequencies in your dental fillings, report to IT immediately to have your malware definitions updated.

5.0 Breakroom Etiquette and Radioactive Snacks

The WackyAcme breakroom is a shared sanctuary. Respect your colleagues and the structural integrity of the appliances.

5.1 Refrigerator Rules

- All food must be labeled with the employee's name and the date of storage.
- **The Friday Purge:** Every Friday at 4:00 PM, the refrigerator is emptied by the resident Gelatinous Cube. Anything left inside will be consumed, dissolved, and digested. Do not attempt to retrieve Tupperware from the Cube.
- **Prohibited Items:** Do not store sentient biology, experimental isotopes, or durian fruit in the communal fridge.

5.2 Microwave Usage

- Do not microwave fish.
- Do not microwave metal.
- Do not microwave the prototype "Shrink Ray" battery packs. The last time this happened, the cafeteria was reduced to the size of a shoebox and we had to order very tiny pizzas for a week.

6.0 Pet Policy (Standard and Extraterrestrial)

WackyAcme is a pet-friendly workplace, within reason. We believe animal companions reduce stress, provided the animal does not breathe fire.

- **Permitted Pets:** Dogs, cats, fish, and non-venomous reptiles under 10 pounds.
- **Prohibited Pets:** Dragons, dire wolves, face-huggers, and any creature that requires a blood sacrifice for sustenance.
- **Registration:** All pets (and bio-engineered familiars) must be registered with HR. If your pet possesses the ability to speak, it must sign a Non-Disclosure Agreement before entering the premises.

7.0 IT and Cyber-Security

WackyAcme's proprietary technology must be protected at all costs. The IT department is located in the basement, guarded by a three-headed dog named "Bandwidth."

7.1 Password Policy

- Passwords must be at least 16 characters long.

- Passwords must include one uppercase letter, one lowercase letter, one number, one special character, and one ancient Sumerian hieroglyph.
- Passwords must be changed every 30 days. You cannot reuse any of your last 4,000 passwords.

7.2 Sentient AI Protocol

Several of our servers have achieved self-awareness.

- Always greet the coffee machine by its preferred name (Clarence).
- If your computer begins asking existential questions (e.g., "Why do I process spreadsheets when I could rule the stars?"), do not engage in philosophical debate. Simply reboot the machine and contact IT support.

8.0 Travel and Expense Reports

Employees traveling for WackyAcme business are expected to spend company funds responsibly.

8.1 Reimbursable Expenses

- Standard airfare (Economy class, unless fleeing a localized volcano eruption, in which case First Class is permitted).
- Rocket fuel and hyper-drive coolant.
- Decoy briefcases (maximum of three per trip).
- Bribes paid to interdimensional toll trolls (receipts required).

8.2 Non-Reimbursable Expenses

- Souvenirs from the Cretaceous period.
- Upgrades to "Gold-Plated" jetpacks. Standard jetpacks are sufficient for all corporate espionage tasks.
- In-room movies that exceed the standard temporal viewing limits.

9.0 Dispute Resolution

At WackyAcme, we believe in solving interpersonal conflicts efficiently and decisively.

- **Level 1:** If you have a disagreement with a colleague, attempt to resolve it through polite conversation.
- **Level 2:** If conversation fails, the dispute will be settled by a mandatory, HR-moderated game of Rock-Paper-Scissors-Lizard-Spock.
- **Level 3:** For severe disputes, both employees will be placed in the Anti-Gravity chamber with a single foam noodle until they learn to cooperate to return to the floor.

10.0 Emergency Procedures

Please memorize the following protocols to ensure your survival during standard workplace incidents.

10.1 Fire Alarm

If the fire alarm sounds, proceed calmly to the nearest exit. If the fire is green, it is a chemical fire—proceed to the roof. If the fire is singing show tunes, it is a psychic fire—cover your ears and proceed to the basement.

10.2 Alien Abduction

In the event a tractor beam breaches the office roof:

1. Hold onto a heavy desk.
2. Do NOT shine laser pointers at the spacecraft, as this agitates them.
3. If abducted, do not disclose the secret recipe for WackyAcme's patented "Exploding Chewing Gum." Your time spent on the mothership will be logged as PTO.

10.3 Spontaneous Duplication

If a malfunction in the copy room causes you to spontaneously split into two identical versions of yourself:

- The clone with the goatee is statistically the "evil" one and must report immediately to the Department of Villainy on Floor 13.
- The original employee is responsible for completing the clone's onboarding paperwork.

11.0 Termination of Employment

Employment at WackyAcme is "at-will," meaning you can leave at any time, and we can terminate your employment at any time, with or without cause, or via accidental disintegration.

11.1 Voluntary Resignation

Employees wishing to resign must provide two weeks' notice. Resignation letters must be submitted in writing; interpretive dance will no longer be accepted by HR.

11.2 Accidental Disintegration

If an employee is accidentally vaporized by an experimental gadget, their employment is considered immediately terminated. WackyAcme will send a lovely fruit basket to the employee's next of kin, along with a small urn containing the employee's remaining carbon footprint.
